

# ADVANCE

CANADA'S BLACK MUSIC BUSINESS COLLECTIVE

## Introduction

1. Advance, Canada's Black Music Business Collective represents the interests of Black Canadians working in all sectors of the Canadian music industry or otherwise professionally involved in the Canadian music ecosystem.
2. Advance is submitting comments regarding *Broadcasting Notice of Consultation CRTC 2020-374: Call for comments – Commercial radio policy framework review*. In addition to this individual submission, Advance is also participating in the joint comments submitted by the coalition of [ADVANCE](#), [Canadian Council of Music Industry Associations](#) (including [Alberta Music](#), [Cultural Industries Ontario North](#), [Manitoba Music](#), [Music BC](#), [Music Nova Scotia](#), [Music NWT](#), [Music PEI](#), [Music Yukon](#), [Music/Musique NB](#), [MusicNL](#), [MusicOntario](#), [SaskMusic](#)), [Canadian Independent Music Association \(CIMA\)](#), [Indigenous Music Alliance](#), [Music Managers Forum Canada](#), [Music Publishers Canada](#) and the [Songwriters Association of Canada](#)
3. The Canadian Radio-Television and Telecommunications Commission (the "Commission") is requesting comments on issues relating to the regulatory framework for commercial radio, including comments on how to best provide diverse, relevant, and quality programming that serves the needs and interests of Canadians while ensuring that artists are best supported by broadcasters in a balanced manner for the creation, presentation, and discoverability of Canadian content.
4. We believe that there can be no real diversity within Canada's broadcasting system without diverse representation at every level of Canada's commercial radio system. As such, we believe it is imperative that the Commission undertake and uphold mandates to create a Canadian broadcasting system that reflects the national diversity of cultural and the racial identity of the country, and to encourage Black-led ownership in the Canadian broadcasting industry.

## The Importance of Diversity of Voices in the Canadian Broadcasting System

5. The importance of diversity in programming and editorial voices in the Canadian broadcasting system is well established by the legislature and the CRTC.
6. The *Broadcasting Policy for Canada*, set out in section 3(1) of the *Broadcasting Act* (S.C. 1991, c. 11), declares that the Canadian broadcasting system should, through its programming and employment opportunities, reflect the multicultural and multiracial nature of Canada.
7. The Commission's *Diversity of Voices* policy, *Broadcasting Public Notice CRTC 2008-4*, describes diversity of voices as an essential component of a functioning democracy. The Diversity of Voices policy explains that through broadcast programming, Canadians are exposed to the viewpoints, ideas and opinions that inform their perspectives on current affairs and impact the choices they make each day. This policy acknowledges that diverse programming, as a key source of diverse viewpoints and ideas, is critical to democracy in Canada.
8. Further, the call for comments on the commercial radio policy framework itself recognizes the importance of a diversity of voices within the Canadian broadcasting system and the commercial radio framework in particular, stating that "diversity of programming and editorial voices are essential components of the Canadian communications industry". The call for comments reiterates the points made in the Commission's *Diversity of Voices* policy, underscoring the importance of diversity in

programming that works to “disseminate Canadian culture and support Canadians’ participation in democracy”.

9. While the importance of diversity of programming and editorial voices in the Canadian communications industry has been recognized and enshrined in the above locations, the Commission has yet to realize these policy objectives. In particular, the Commission has failed to meet these objectives as they relate to ensuring Black representation and the empowerment of Black voices in Canada’s commercial radio landscape.
10. Specifically, these policy objectives fail to address any real, actionable steps that the Commission can and will take to ensure Black representation in the Canadian broadcasting system, and in commercial radio in particular.

### **Diversity in Today’s Commercial Radio Landscape: Black-Owned and Operated Radio**

11. The importance of Black representation in Canada’s commercial radio landscape, in both ownership and programming, cannot be overstated.
12. First and foremost, Black-owned, Black-led and Black-oriented radio stations are cultural hubs and meeting places for Black communities in Canada. As a symbol of community pride and power, Black-owned, Black-led and Black-oriented radio is an essential resource in Canada. Black-owned radio provides Black communities with the ability to amplify Black voices and increase agency, and has historically played an important role in launching the careers of Black leaders in multiple sectors, including music, media and politics. Recording artist Jilly Black, CTV anchor Nathan Downer and media personality Mark Strong are just a few of the Black Canadians in who launched their careers with the help of Black-owned, Black-led and Black-oriented radio. In this regard, Black-oriented radio shines a light on the opportunities available to Canada’s young people, providing Black youth with a media platform that centers their communities and their voice, remaining a place to see their community leaders in action.
13. Further, Black-owned, Black-led and Black-oriented radio disseminates vital information to Black communities, remaining a much needed and deserved resource. During the pandemic, Black-oriented radio has provided critical information regarding public health, safety, and support to local Black communities in Canada. In the current political climate, Black-oriented radio plays a key role in disseminating information on political action and justice initiatives to Canada’s Black communities and beyond. At a time when all levels of government have acknowledged the harm caused by systemic racism in Canada, Black representation and the amplification of Black voices remain essential to a functioning democracy.
14. Black-owned, Black-led and Black-oriented radio remains a vitally important thread in Canada’s cultural and political fabric. Black representation and empowerment in all areas of public life are imperative to the health and prosperity of our nation and our citizens.

### **Black Representation and the Evolving Demands of a Diverse Public**

15. Black representation in Canadian commercial radio is not only needed and deserved, but also urgently desired by a diverse Canadian public.
16. Music by Black artists, songwriters and producers remains underplayed in the Canadian commercial radio market. Data comparing commercial radio plays with on-demand streams of music created by

Black artists paints a stark picture in which the music played in controlled commercial radio environments is wildly out of step with the listening choices made by the Canadian public in more democratized streaming environments<sup>1</sup>. From 2016 through 2020, Black artists appeared on Canada's top 100 streaming charts more than 3.5 times as often as they did on Canada's top 100 radio airplay charts<sup>2</sup>.

17. Canada is a multicultural, multiracial and diverse nation with a listening audience that expects and deserves to see this diversity reflected by the media platforms it interacts with. When Canadians have the choice, they choose to listen to music created by Black artists. High streaming rates for Black artists compared with low commercial radio airplay numbers for these same creators provide evidence that commercial radio is out of touch with the demands of a diverse Canadian public.
18. Advance submits that this failure on the part of commercial radio to meet the expectations and demands of the Canadian public is directly attributable to the lack of Black representation in the Canadian commercial radio sector at the senior leadership and ownership level.
19. The sale of FLOW93.5FM, a Black-owned and operated radio station active in the 2000s, to owners outside of the Black community resulted in a change of music format and the dramatic loss of Black representation across Toronto's airwaves. In 2020, Southern Ontario's only Black-owned and Black-led radio station, G98.7FM, was purchased by an investor outside of the Black community. Should the Commission approve the pending G98.7FM license transfer, it will defy its own diversity mandate as outlined in the original CRTC-approved license, removing a vital opportunity for Black-ownership in the commercial radio sector. We believe that Black-ownership and control of commercial radio platforms is the only way to ensure Black representation at every level, including airplay.
20. Further, section 3 (1) (s) of the *Broadcasting Act* (S.C. 1991, c. 11) declares that programming undertakings should remain responsive to the evolving demands of the public. The Canadian public demands music by Black creators. By ensuring Black representation at all levels of the commercial radio sector, particularly at the level of station ownership, the Canadian broadcasting system will be best positioned to meet the demands of a diverse public.
21. Fundamentally, without diversity of leadership and ownership, there can be no true diversity of programming and of editorial voices in the Canadian broadcasting system.

### **Encouraging Black Ownership in Broadcasting and Amplifying Black Voices: Call for Mandates**

22. While the importance of diversity of programming and editorial voices in the Canadian communications industry is well established, the Commission has yet to realize these policy objectives. In particular, the Commission has failed to meet these objectives as they relate to ensuring Black representation at the ownership and management level in Canada's commercial radio sector, thereby further failing to meet the demands of a diverse Canadian listening audience.
23. We believe that there can be no real diversity within Canada's broadcasting system without diverse representation in every sector, and at every level of Canada's commercial radio system. As such, we believe it is imperative that the Commission undertake and uphold mandates to create a Canadian broadcasting system that reflects the national diversity of culture and the racial identity of the country,

---

<sup>1</sup> See attached Appendices 1&2

<sup>2</sup> See attached Appendix 3

to encourage Black ownership in the Canadian broadcasting industry, and to otherwise meet the policy objectives described by the Commission and as outlined above.

24. Advance asks that the Commission takes action to ensure that G98.7FM remains a Black-owned, Black-led and Black-oriented radio station. We ask that the Commission uphold the mandate of the original CRTC-approved license for G98.7FM and the associated conditions around ownership, content and management. It is imperative that the broadcast license remain in the hands of a Black leadership and ownership team, as was the view of the original application decision<sup>3</sup>.
25. While G98.7FM was indeed sold to the highest bidder without regard for the mandate of the original CRTC-approved license, Advance asks that the Commission acknowledge that the reasons for the approval of the original license, including the recognition of the “cultural and racial diversity to be added to the Toronto radio market through the establishment of a local radio service targeted entirely to the Caribbean and African communities”<sup>4</sup>, remain as relevant as they were in 2011, if not more in today’s current political climate.
26. It is critical to the health and prosperity of Canada’s Black communities and the Canadian broadcasting industry more broadly that the mandate and intent of the original G98.7FM license decision be upheld by the Commission, particularly its mandate to ensure Black-oriented programming on the understanding that such a radio service will “add cultural and racial diversity and will benefit the Caribbean and African communities of Toronto”<sup>5</sup>. We believe that the only way to properly meet this mandate is by ensuring that G98.7FM remains in the control of Black ownership and leadership.
27. Further, Advance asks the Commission to undertake the work required to create and uphold mandates to
  - a. build a Canadian broadcasting system that reflects the diverse cultural and racial identity of the country;
  - b. encourage and increase BIPOC ownership and management throughout the Canadian broadcasting industry, through advocacy and legislation; and
  - c. otherwise encourage opportunities for and representation of Canada’s BIPOC communities at all levels of the Canadian broadcasting industry.
28. Advance remains committed to working with the Commission and other industry stakeholders to create and implement any such mandates, at every stage.
29. We believe that the creation of real, actionable directives by the Commission is the first step toward achieving the policy objectives laid out in the *Broadcasting Act* and the Commission’s *Diversity of Voices* policy, and that such work is vital to ensuring the health and prosperity of Canada’s Black and other racialized communities.
